HOW IT WORKS

One Bounty Chip will be allocated to each player prior to play commencing with each Bounty Chip valued at \$200.

A second Bounty Chip will be allocated (once registration is closed) to all remaining players when the entry number is reduced to 40% of the field remaining (rounded Down), with each of the second Bounty Chips valued at \$500 and with any money remaining in the Bounty Prize Pool being awarded to the overall tournament winner.

When a Player eliminates another player, they will win that players \$200 Bounty Chip. Once the second Bounty Chip is introduced when a player eliminates another player, they will win both Bounty Chips for a total of \$700.

Players who share a pot where a Bounty Chip/Chips is won will split the value of the Bounty.

HOW IT WORKS

Bounty chips will not be introduced until 20% of the starting field remains.

Successfully eliminate another player from this point, and you'll earn their Bounty Chip, with each Bounty Chip worth \$2,000.

Players who share a pot where a Bounty Chip/Chips is won will split the value of the Bounty.
